

## **LB-15.5 | LINE BORE SERVICE BODY**

The Heritage Industries LB-15.5 Line Bore Service Truck is unmatched. With a state of the art hydraulic control circuit, coupled with a Miller Big Blue® 800 Duo welder, efficiency and throughput are second to none. The entire body was designed for safety, performance, and longevity, all in a very lightweight package.

## LB-15.5 BODY HIGHLIGHTS

- 15.5' line bore service body.
- All aluminum side packs with full LED lighting.
- Inverted door jams with secondary water-tight gutter system - provides easier loading/unloading of bottles, more drawer space, and eliminates pooled water and debris.
- Quick-connect weld/gas lines and reinforced compartment floor.
- Convenient hose and welding reel locations, secured and out of the elements.
- Infinitely adjustable shelving tracks.
- Built-in, secure, boring bar tubes.
- 8 chain tie-down points for improved load securement compared to d-ring points.
- Miller Big Blue® 800 Duo Air Pak™ welder.
- Stellar® 12k lb. capacity crane with 30' reach.
- Rear mounted electrical boxes and welder extensions.
- Clean, easy to use switch and fuse panels.
- Custom roll-out trays.
- E-Track bed cargo tie down system.
- Work deck bumper with rear access storage, 80" wide x 33" deep.
- Drop down stair-case style bumper entry step.
- Side pack mounted handrail and stow away grab handle ensures 3-point contact for entry/exit.
- Spray-on bed liner on galley walls, sidepack tops, tailgate and rear bumper/work deck.
- 1080p, 150° view backup camera and backup alarm.
